

some titlepage stuff BIG

## **Abstract**

[Abstract - fought the good fight]

# Acknowledgment

Special thanks to Professor Hal Slice for two things:

- 1) Teaching me the ability to count to infinity:

$1, 2, 3, \dots, K, K + 1$

- 2) Spending a summer outside of a classroom for numerous days and teaching me how to  
look for a formula vs. brute force inspection.
