Same is true for right side

This is n value math

Column Math ( H + M + R ) - C = D (where D is the limit for that box)

(*fam23 + *fam19 + *fam17 ) - *fam29 = limit

Something to do with the n level of the Cash Pile

But what ?

It's one off from the factor - factor = 61 ; sum = 62 (+1) ; after math 60  (-1)
